Description

This is the NEW re-styled version of the Apollo Spraymate recently labeled BEST BUY in Practical Classics car magazine.

- **Approx output 6psi - 80cfm**
- Ease of use
- Reduced overspray
- Efficient 1000 watt single stage turbine
- Easy cleaning
- Constantly rated - will spray all day
- No waiting for air pressure to build

The Apollo Spraymate is ideal for workshop, garage or home use and suitable for spraying a variety of finishes such as cellulose, emulsion, gloss enamel, lacquers, creosote, insecticides, varnishes and so on. It is a complete plug in and go system which is easy to use, clean in operation and easy to clean once the job is finished. Comes complete with 5m of flexible hose, spray gun and instructions for easy use.
